BIGHORN BASIN PALEONTOLOGICAL INSTITUTE

is proud to request underwriting support for the

ESTABLISHMENT OF A SCHOLARSHIP FUND

Our Mission

The Bighorn Basin Paleontological Institute seeks to collaboratively study, actively preserve, and dynamically interpret the paleontological treasures of the Bighorn Basin and the surrounding region, as well as to promote paleontology and the natural sciences to life-long learners, wherever they may be.

The **Bighorn Basin Paleontological Institute** is searching for partners to establish a named scholarship initiative. The funds will provide one scholarship per year for five years for any student who qualifies academically but who may not otherwise be able to attend our *GEO 328 - Field Paleontology course*. Each scholarship will pay for tuition, expedition fees, instruction, and transportation to and from Montana for this exciting and meaningful field study.

Your support can provide deserving students with the means to reach their goals of becoming respected earth scientists, contributing invaluably to our society by improving our collective knowledge of the world around us. Scholarships attract the best students, enable those who work most diligently to fulfil their dreams, recognize academic achievement, and promote diversity within the field. Scholarships make education attainable for those who need financial assistance, and they enable students to focus on schoolwork and learning, rather than financial concerns. We invite you to speak to one of the **BBPI**'s representatives to see how you can make a difference in students' lives by establishing a named scholarship.

Funding Goal: $50,000
